SUMMARY

Software Developer specializing in building clean, reliable, and scalable web systems. Experienced in developing robust backend services, databases, and APIs, with a passion for software architecture, clean code, and practical problem-solving.

WORK EXPERIENCE

XMATIQ Technologies ,Software Engineer

July-2025-Present

Started as a Software Engineering Intern and advanced to a Software Engineer, developing backend applications with Python and FastAPI. Built REST APIs, implemented production features, and improved the reliability and performance of backend systems.

Macrosoft Creation, Data Analyst Intern

Jan 2025 - April 2025

Built a Business Intelligence solution using Microsoft Power BI, creating automated dashboards connected to a MySQL database to deliver centralized analytics and reporting.

SKILLS

Programming Languages : C, Python, FastAPI,Streamlit, MySQL, MongoDB Atlas .

Tools and Platforms: Power BI ,AWS, Docker, Git, GitHub, GitLab

AI/ML: LangChain, LangGraph, HuggingFace, LLMs, Deep Learning, NLP, Computer Vision

PROJECTS

Eventify : Billing System

[Link to Demo](#)

Built a scalable event billing and management platform that streamlines customer management, invoice generation, payment tracking, and business reporting. Designed a responsive dashboard with secure authentication and efficient backend APIs to simplify day-to-day operations.

LLM-Based CSV Query System (LangChain + RAG)

[Link to Demo](#)

Developed an LLM-powered CSV querying system using LangChain that generates embeddings, indexes tabular data, and enables natural language queries over CSV datasets. Implemented a RAG pipeline to retrieve relevant data and pass contextual inputs to the model for accurate responses. Currently extending the system by integrating a Streamlit UI and database connectivity for interactive data exploration.

EDUCATION

2021-2025 Bachelor's Degree in Information Technology

CGPA: 8.67/10

2021 Class 12th, GSHSEB Board

72%

2019 Class 10th, GSHSEB Board

82%

LEADERSHIP EXTRACURRICULAR ACTIVITIES

Co-Ordinator, TECHNOSPARX'2024 (College Annual Techfest)

Designed captivating logo and banner for Techfest events, showcasing creativity and design skills. Led a sub-campaign team to conceptualize and execute engaging promotional material, demonstrating leadership and teamwork abilities.

Working as a freelancer for designing content for a Startup

Collaborated part-time during college with a health-focused food startup to support branding and marketing initiatives. Managed the company's social media accounts, designing engaging posts and promotional content to enhance online presence. Created visually appealing presentations (PPTs) and marketing materials aligned with brand identity.
